

BBA & BCA Student Testimonials

Anjali Kumar – BBA (Final Year)

My three years in the BBA program transformed my confidence and communication skills. The practical projects, industry visits, and supportive faculty helped me understand real business environments.

Rohit Verma – BBA (2024 Batch)

The BBA course gave me strong managerial and leadership skills. Regular presentations, internships, and case studies improved my decision-making. I am thankful to my teachers for guiding me throughout my journey.

Sneha Mishra – BBA (Placed at HDFC Bank)

Getting placed in a reputed company was possible because of the placement cell and training sessions. The mock interviews and soft-skill classes really boosted my confidence.

Aman Raj – BCA (Final Year)

BCA helped me build a solid foundation in programming and software development. The labs were excellent, and the faculty always encouraged hands-on learning. I developed projects that strengthened my portfolio.

Priya Sharma – BCA (2023 Batch)

What I loved most about the BCA course was the focus on practical skills. I learned Python, Java, database management, and web development with real-life projects. This course gave me clarity about my IT career.

Satyam Singh – BCA (Placed as Software Developer)

The college provided amazing placement support. Technical training, coding tests, and interview guidance helped me secure a developer role. I am proud to be a BCA graduate from here.
